***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-19 and 31, drawn to an adjustable assembly, classified in class 15, subclass 52.1.
  - II. Claims 20-30, drawn to a method of adjusting the spacing of bristles and a surface, classified in class 15, subclass 52.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed is much broader in scope than the associated apparatus claims and could be practiced by another materially different apparatus such as (1) one which did not have the two attachment locations and pivotable cam member (required by claim 1); (2) a housing member with two apertures and first and second cam members (required by claim 12); and (3) the first and second mounting structure, adjustable mechanism and source of rotational motion (required by claim 31).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1744

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
